About Us

Samiri is a Leading manufacturer of Roto moulds in Ahmedabad, India. Our manufacturing unit is located in Kathwada, Ahmedabad Since 2010. We have complete in house facilities for designing, tooling & production with a team of dedicated Engineers to provide with innovative and cost effective solution for Rotomoulding requirements. We manufacture all types of M.S / S.S. Fabricated rotational moulds.

Mission

Our main motto is to meet the continuous demands of the industry and customers with unrelenting dedication and unmatched efficiency. This is not an easy task and we are seeking ways to improve our methods and technology so that the effects are felt on a global level.

To explore and find new markets where our pioneering skills will be needed. The horizon is broadening and there are many out there who need what we do and we take it upon ourselves to meet their needs.

Vision

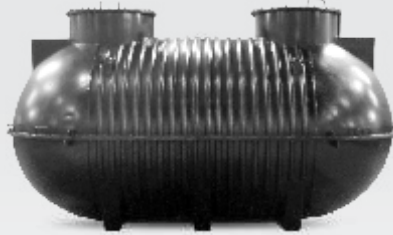

- Produce cost-effective and durable products that will take the market by storm.
- Be innovators and pioneers in the rotational moulding products and moulds industry with technology that is years ahead of its time.
- Seek new methods that will increase efficiency, lower production costs and take the industry to the next level of advancement.

Satisfaction Guaranteed

We have come so far ahead in the industry because we have happy customers. They will certify that our designs are exactly what they need and are so perfect that it will fit the needs of future technology as well. We have set high parameters for our manufacturing processes and have never compromised on them. We use only high quality raw products so that durability and endurance are assured.
